Survey of Registered Practitioners in Patent Cases

The Office of Enrollment and Discipline (OED) will be conducting a survey pursuant to 37 C.F.R. § 10.11(b) of the active registered practitioners. The purpose of the survey is to ascertain whether the practitioners desire to remain on the register.The United States Patent and Trademark Office benefits from the survey by obtaining confirmation that OED's records regarding each practitioner's address and telephone number are correct, or by receiving updated information.In the past, the survey has prompted some individuals to advise OED of the deaths of other practitioners.

At the present time, there are more than 25,000 active registered practitioners.A register of all active registered practitioners, also called the roster, is found on the Office web site at www.uspto.gov/dcom/olia/oed/roster/index.html. This survey will not be conducted of the entire roster of 25,000 active registered practitioners at one time. Instead, the survey is being conducted of ten percent of the active registered practitioners at a time. It is expected that the survey will occur twice each year, and that the entire active register will be surveyed in five years.

A survey letter will be mailed on October 24, 2001, to active registered practitioners whose registrations numbers are 20,893 through 26,305, inclusive.Enclosed with the survey letter will be a blue Data Sheet, which practitioners must complete and return to

OED within thirty days of October 24, 2001. The survey will be mailed to the address on the roster.This is the last address for which the Director of Enrollment and Discipline received separate notice.

Practitioners can determine if they should receive a survey letter and Data Sheet by checking the roster on the Office web site.A practitioner on the roster with a registration number within the range from 20,893 through 26,305, should receive the survey letter and blue Data Sheet by November 1, 2001, if the practitioner receives mail at the address on the roster.If a practitioner does not receive the survey by November 1, 2001, the practitioner should contact LouWilda Turner or Shirley (Rasheed) Brown via mail addressed to the Commissioner of Patents and Trademarks, Box OED, Washington, D.C. 20231, or via e-mail addressed to Louwilda.Turner@uspto.gov or Shirley.Rasheed@uspto.gov.

A practitioner on the roster with a registration number from 20,893 through 26,305 who no longer receives mail at the address listed in the roster must provide the new address to receive the survey letter and blue Data Sheet.Please contact LouWilda Turner or Shirley (Rasheed) Brown at the foregoing addresses.

The name and address of any practitioner failing to reply and give any information requested by the Director within the 30-day time limit specified will be published in the Official Gazette.A further 30-day opportunity will be given to respond and provide the requested information.Thereafter, the names of practitioners failing to reply and give the requested information will be removed from the register and the names of individuals so removed will be published in the Official Gazette. The name of any individual so removed may be reinstated on the register as may be appropriate and upon payment of the fee set forth in 37 CFR § 1.21(a)(3).

If an individual's name is not on the roster, and the individual's registration number is within the range from 20,893 through 26,305, the individual's name has been endorsed as inactive on the roster.Individuals whose names are endorsed as inactive include those who failed to reply to previous surveys, or requested to be removed from the roster, as well as individuals employed by the Office.No survey will be sent to these individuals.

Practitioners having a registration number higher than 26,305, are not in the current survey.Accordingly, it is not necessary for them to call or advise OED that they did not receive the survey.A survey will be sent to them in the future.

SPECIAL BOXES FOR PATENT MAIL

Special box designations should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each special box are addressed to that box, they will be significantly delayed in reaching the appropriate area for which they are intended.

Some correspondence may only be submitted via the Office's electronic filing system (EFS). For example, the following publication requests must be submitted via EFS:

a request for publication of an application as amended during examination (37 CFR 1.215(c));
a request for redacted publication (37 CFR 1.217(b));
a request for voluntary publication of an application filed before November 29, 2000 (37 CFR 1.221(a)); or
a request for republication of an application that has already been published (37 CFR 1.221(a)).

Instructions on how to file such a publication request via EFS are located on the Office's Electronic Business Center on the Office's Internet Web site http://www.uspto.gov <http://www.uspto.gov>) under the Electronic Business Center section.

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information for the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis optical disk series are available at all PTDLs to increase access to that information. It is through the optical disk systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) at the Sunnyvale Public Library in Sunnyvale, California and at the South Central Intellectual Property Partnership at Rice (SCIPPR) at the Fondren Library of Rice University in Houston, Texas.

SECTION 2.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
